Gentlemen:

Re: OHSI Recommendation #28 – Review Cycles

In the OHSI Report, Commissioners Wells stated:

It is recommended that the Regulator review on an ongoing basis its regulations, guidelines, and standards regarding offshore helicopter transportation; that formal reviews be undertaken at least every three years; and that input be invited from oil operators, workers, helicopter operator(s), and other stakeholders.

We request that the Operators ensure resources and personnel are available from their operations, helicopter operators and the offshore workforce to be part of the Aviation Safety Team and OHSI Safety Team to develop protocols for review of regulations, guidelines and standards regarding offshore helicopter transportation.

We will ask the Teams to develop a work plan for their response to this recommendation, and to present that work plan by January 31, 2011. We will also ask that they prepare and present a monthly status report of progress against the work plan.

We anticipate your cooperation in this regard and ask that you promptly acknowledge receipt of this letter and confirm your undertaking to accommodate our request.

Sincerely,

Max Ruelokke, P. Eng.
Chairman & CEO
