

**REGIONAL ASSESSMENT OF OFFSHORE OIL AND GAS EXPLORATORY DRILLING
EAST OF NEWFOUNDLAND AND LABRADOR
Technical Advisory Group (TAG) Session on GIS
September 11, 2019
QUESTIONS AND ITEMS FOR DISCUSSION
PARTICIPANT INPUT FORM**

Name and Affiliation: _____

1) Do you have any suggestions on available environmental datasets or other information sources that should be accessed and used in the RA, or around key data gaps?

Layers that would be useful for planning purposes:

- DFO Navigation warnings
- Recent catch rates for various fisheries

2) Do you have any suggestions around the analytical capabilities that the GIS tool should include, related to the presentation and analysis of environmental data, and/or to the potential environmental effects and required mitigation?

3) Do you have any suggestions around the nature and format of the eventual product that the Committee will develop and submit to the Minister?

4) Do you have any suggestions on where the GIS platform should be housed, such that the system gets maintained and updated at regular intervals?

5) Do you have any other input or recommendations that you would like to provide to the Committee on this topic?

- It would be nice to download everything to get an offline version.
- Useful training on the system
- Listing of the datasets that will be used
- Download the shape files to overlay it with internal company shape files.
