Subject: RE: Suncor Energy Eastern Newfoundland Offshore Area 2D/3D/4D Seismic Program, 2014 to 2024

Darren:

As requested I have reviewed the above noted document against previously submitted comments on review of the EA as provided for in March 5, 2014 letter from DFO.

Please note that it would appear that comments provided in our March 5, 2014 letter have been addressed in the submitted responses / addendum.

Just wondering is it correct to assume that the acceptable submitted responses will now be reflected within a revised project EA or does the submitted response document become the revised EA?

If any questions let me know.
