Subject: EC Response 2013-098: Suncor Energy Eastern Newfoundland Offshore Area 2D/3D/4D Seismic Program, 2014 to 2024 - Addendum

Darren,

Environment Canada (EC) has reviewed the addendum to the environmental assessment report submitted by Suncor Energy (Suncor) (Suncor Energy Eastern Newfoundland Offshore Area 2D/3D/4D Seismic Program, 2014 to 2024 Environmental Assessment Report Addendum).

Suncor has addressed our comments/concerns submitted to the C-NLOPB on 21 February 2015. We would also like to inform the C-NLOPB that data from seabird monitoring observations should be sent to Josh Mailhiot (Joshua.mailhiot@ec.gc.ca) instead of Carina Gjerdrum from this point forward. Observations related to the seabird handling permit must continue to be reported as per the conditions of the permit.

An updated version of the Williams and Chardine protocol is under development and will be provided to the C-NLOPB when it is ready for distribution.
