

Industry Performance Improvement Action Plan

Paul Barnes, Director, Atlantic Canada & Arctic
December 3, 2019

CAPP's Offshore Policy Group

- **CAPP's Offshore Policy Group (OPG) comprises senior leaders of CAPP members operating in the Atlantic Canada offshore**
- **The OPG develops CAPP's priorities for the Atlantic Canada region and provides direction to various Standing Committees and working groups who develop and implement work plans to achieve CAPP's priorities**

CAPP OPG Views on Recent EH&S Performance

- **As an industry, we are disappointed in recent offshore environment, health and safety performance**
- **As investigations into recent events continue our members will continue to implement corrective actions that arise through these learnings and share any lessons learned with other producers and explorers**
- **In addition to its regularly scheduled meetings, the OPG has met several times in Q4 to specifically discuss environment, health and safety performance**
- **Discussions have examined current OPG priorities, governance and collaboration**
- **In October 2019, the C-NLOPB sent a letter to all producers and explorers and requested that industry develop a plan to effect basin-wide improvements in environment and safety performance**

CAPP OPG Action Plan

- **The OPG had already begun to review collective industry performance and how information is shared related to environment, health and safety**
- **Based on its review, the OPG remains confident that the offshore industry has the right foundation to operate safely**
- **The OPG is developing an Improvement Action Plan with a focus on safe, responsible and reliable operations through continuous improvement**
- **Plan will highlight opportunities to strengthen collaboration and information sharing and identify ways to foster collective performance improvement**
- **Plan will incorporate any relevant outcomes from this week's workshop that can be collectively addressed through CAPP**
- **Additional detail on this Plan will be provided in January**

Thank you
