Subject: RE TGS NOPEC Geophysical Company ASA and Multi Klient Invest AS Offshore Labrador Seafloor and Seabed Sampling Program, Newfoundland and Labrador Offshore Area, 2014-2019

Good Morning,

Sorry for the late response for comments on this project.

I reviewed the EA report this morning and have determined that the project as described will not cause a "serious harm" to fish and/or fish habitat. The activities described would have very minimal impacts (if indeed any) and are of a very short duration.
