**Re: Environmental Assessment Addendum for TGS Offshore Labrador Seafloor and Seep Sampling Program 2014-2019**

Dear Darren:

Please find attached the Environmental Assessment Addendum for the Offshore Labrador Seafloor and Seep Sampling Program being proposed by TGS Canada Ltd. and Multi Klient Invest AS, a wholly owned subsidiary of Petroleum Geo-Services ASA.

The addendum addresses all general and specific comments outlined in the "Consolidated Review Comments" document dated May 28, 2014.

Please note, a company name change to **TGS Canada Ltd.**, originally TGS-NOPEC Geophysical Company ASA. TGS Canada Ltd. will be the operator on the program. Nothing else has changed in terms of contact information, address, etc., this is a change in name only.

Thank you for your assistance with reviewing the Environmental Assessment Addendum. Please call or e-mail me directly if you have any questions concerning the document or the proposed program.

Sincerely,

[Redacted Signature]  
Senior Regulatory & Compliance Specialist
