Subject: RE: TGS NOPEC Geophysical Company ASA and Multi Klient Invest AS Offshore Labrador Seafloor and Seabed Sampling Program, Newfoundland and Labrador Offshore Area, 2014-2019 - OceanEye Aerial Surveillance System

Good Morning Darren,

After review of the additional information provided by TGS, TC has determined that the noted balloon survey operation is not subject to the marking and lighting requirements under the Civil Aviations Regulations. Nothing required from TC.

Cheers

Subject: TGS NOPEC Geophysical Company ASA and Multi Klient Invest AS Offshore Labrador Seafloor and Seabed Sampling Program, Newfoundland and Labrador Offshore Area, 2014-2019 - OceanEye Aerial Surveillance System

We have received the attached documents from TGS which proposes the additional use of the "OceanEye Surveillance System." The C-NLOPB believes that Transport Canada should be made aware of the proposed use of this. Please provide comments by August 18, 2014.

Other details concerning this project may be found at
<http://www.cnlopb.nl.ca/environment/tgsmkiolsssp.shtml>

Please feel free to contact the C-NLOPB if you have any questions.

Cheers
Darren
