Subject: RE: TGS NOPEC Geophysical Company ASA and Multi Klient Invest AS Offshore Labrador Seafloor and Seabed Sampling Program, Newfoundland and Labrador Offshore Area, 2014-2019

Hi,

Transport Canada has reviewed the project description and has determined that all project vessels must comply with the applicable regulations under the Canada Shipping Act, 2001 (CSA 2001) and applicable International Maritime Organization (IMO) standards.

More specifically:

- Project vessels registered in Canada must comply with all applicable provisions of the Regulations pursuant to the CSA 2001. In addition, the operation must comply with provisions under the Maritime Occupational and Health Regulations pursuant to Part II of the Canada Labour Code.

Given the above advice, there is no need for TC-Environmental Affairs to be further involved in CNLOPB's environmental review process for this proposal. Please feel free to contact me if you have any questions.

Subject: RE: TGS NOPEC Geophysical Company ASA and Multi Klient Invest AS Offshore Labrador Seafloor and Seabed Sampling Program, Newfoundland and Labrador Offshore Area, 2014-2019

Hello all: please see the attached project description for a proposed exploration program for the Newfoundland and Labrador Offshore Area, as proposed by TGS-NOPEC ASA (TGS) and Multi Klient

Invest AS (MKI). I have also attached a DRAFT scoping document for your review and input as well as our letter requesting input. Please provide your response no later than February 26, 2014. If no reply is received by this date then it will be assumed that you have no comments on the proposed project.

If you have any questions please feel free to contact us.

Regards

Environmental Analyst
