Subject: TC Response - White Rose Extension EA Report Addendum

Good Morning,

TC has reviewed the proponent's response to TC's initial comments on the White Rose Extension EA Report and has determined that our departmental comments have adequately been addressed in the addendum.

TC does have one minor comment on the EPP in Attachment #2 of the addendum package;

* Page 61 – Contingency Procedures No. 1 – states ‘...in accordance with CCG regulations.’. TC suggests updating this statement to “...in accordance with CCG and TC regulations.” because TC is responsible for the Canada Shipping Act and the Navigable Waters Protection Act.

Please feel free to contact me if you have any questions or concerns.
