Subject: Consultation of the Canada-New-Foundland-Labrador Board on hydrocarbures

Miss Young,

I tried to contact you this morning by phone, but you were not there. My phone call was about consultation on the updating of the Strategic environmental evaluation (SEE) on hydrocarbure prospection and exploitation in the extracoastal zone of western New-Foundland-Labrador that your Board is actually leading.

I am working for the Nutashkuan Innu First Nation. They asked me to answer to the letter send the 26th September by David Wells to chief Rodrigue Wapistan.

The Nutashkuan First Nation would like to :

1. Receive the project of the SEE in order to make commentaries;
2. Know the agenda of the consultation, particularly the precise coordinates of the meeting planned in Havre-Saint-Pierre (date, time and place)
3. The next steps of this updating of the SEE.

In addition, the First Nation want to know what are funds available to help them to prepare and participate to the consultation.

Last, we would like to know if all the information available, and the communications with your Office can be done in French ?

You may contact me at the phone numbers indicated below.

Thanks for your attention,

Vincent Gerardin

Pour la Première Nation de Nutashkuan
